

RoboClean Mini

Compact. Quiet. Perfect for Small Spaces.

Ideal for apartments, studios, and tight corners, the RoboClean Mini is a powerful vacuum in a small package. Simple, efficient, and no unnecessary extras.

The RoboClean Mini is proof that great things come in small packages. Designed specifically for smaller homes, studio flats, and tight living spaces, the Mini delivers powerful vacuuming in a whisper-quiet, ultra-compact design. Its 1200 Pa suction power, anti-drop sensors, and low-profile build make it perfect for sliding under sofas, skirting around table legs, and picking up everyday dust and debris without making a fuss. With simple one-button operation and no complex setup, it's ideal for busy people who want clean floors without the bells and whistles.

While it skips app connectivity and advanced mapping, the Mini is a reliable, no-frills robot cleaner built for simplicity and portability. It's light enough to carry between rooms or floors, and with up to 90 minutes of battery life, it can cover up to 70 m² on a single charge. Whether you're a student in a flatshare or someone looking for a secondary cleaner for a guest room, the RoboClean Mini gets the job done quietly and effectively — no app, no Wi-Fi, no problem.

Key Specs:

Feature	Specification
Cleaning Area	Up to 70 m ²
Battery Life	Up to 90 minutes
Charging Time	~3 hours
Suction Power	1200 Pa
Dustbin Capacity	300 ml
Noise Level	55 dB
Dimensions	28 cm diameter × 7.5 cm height
Weight	2.3 kg
Navigation	Bump + random pathing
Cliff Detection	Yes
Carpet Boost	No
Mobile App	No
Voice Assistant Support	No
Scheduled Cleaning	Manual only (on-device button)

RoboClean Pro

Smart. Strong. Built for Busy Homes.

With higher suction, scheduled cleaning via app, and a larger dustbin, the Pro is perfect for medium-to-large homes that need a daily clean without a second thought.

500 ml dustbin, the Pro tackles pet hair, crumbs, and stubborn debris with ease. Its smart gyroscope navigation system ensures more efficient cleaning patterns compared to random-path robots, reducing missed spots and overlapping areas. Best of all, the Pro connects to the RoboClean mobile app, allowing you to schedule cleaning sessions, start or stop remotely, and monitor your robot’s progress from anywhere.

Beyond power and control, the Pro adds thoughtful touches that make day-to-day cleaning a breeze. It includes automatic carpet boost, anti-collision sensors, and a modest 60 dB operating volume — quiet enough for cleaning while you work from home. Its 120-minute battery life means it can cover larger spaces in one go, and the intuitive app interface gives you scheduling flexibility without needing to be physically present. If you’re after a balance of tech, suction, and ease of use, the RoboClean Pro is the sweet spot.

Key Specs:

Feature	Specification
Cleaning Area	Up to 120 m ²
Battery Life	Up to 120 minutes
Charging Time	~3.5 hours
Suction Power	2200 Pa
Dustbin Capacity	500 ml
Noise Level	60 dB
Dimensions	32 cm diameter × 8.5 cm height
Weight	2.8 kg
Navigation	Gyroscope-based smart pathing
Cliff Detection	Yes
Carpet Boost	Yes
Mobile App	Yes (iOS & Android)
Scheduled Cleaning	Yes (via app)
Voice Assistant Support	No

RoboClean Duo

Vacuum + Mop Combo. Smarter Floor Cleaning.

Switches automatically between vacuuming and mopping depending on floor type. Perfect for homes with a mix of tile, wood, and carpet.

Why choose between vacuuming and mopping when you can have both? The RoboClean Duo is a versatile cleaning companion that automatically switches between suction and wet mopping based on floor type. Its intelligent floor detection system identifies when it's on tile, wood, or carpet, raising or disabling the mop function accordingly to avoid soggy surprises. Equipped with a 2000 Pa vacuum motor, a 250 ml water reservoir, and precise control over mop intensity (light, standard, or deep), it's perfect for homes with mixed flooring and busy foot traffic.

The Duo's smart mapping allows for more structured coverage, helping it clean efficiently and avoid unnecessary overlap. You can schedule cleanings, adjust water usage, and monitor progress through the RoboClean app, making it a highly customisable solution for everyday messes. Whether it's muddy footprints in the hallway or crumbs in the kitchen, the Duo handles it all in one seamless pass. For families, pet owners, or anyone juggling kids and chores, this is the robot that truly multitasks.

Key Specs:

Feature	Specification
Cleaning Area	Up to 140 m ²
Battery Life	Up to 110 minutes
Charging Time	~4 hours
Suction Power	2000 Pa
Dustbin Capacity	400 ml
Water Reservoir Capacity	250 ml
Noise Level	58 dB
Dimensions	33 cm diameter × 9 cm height
Weight	3.1 kg
Navigation	Smart mapping with floor detection
Carpet Avoidance (Mop)	Yes (auto-lift mop)
Mobile App	Yes
Scheduled Cleaning	Yes
Voice Assistant Support	No
Mopping Modes	Light, Standard, Deep

RoboClean Ultra

Ultimate Power. Precision Cleaning.

The RoboClean Ultra is the flagship model. With LiDAR mapping, self-emptying bin, voice control, and smart room targeting, it's built for the modern home.

The RoboClean Ultra is the flagship model for a reason. Built with premium features like advanced LiDAR navigation, a self-emptying base, and multi-floor mapping, it's designed to clean your home exactly the way you want — and do it all with minimal input. With 3000 Pa of suction power, a 3-stage filtration system, and precision room targeting, the Ultra doesn't just roam; it *strategises*. Through the app or your voice assistant (Alexa and Google Assistant supported), you can send it to clean specific rooms, create no-go zones, or set routines for different times of day.

But it's not just about tech — it's about peace of mind. The Ultra's 180-minute runtime is one of the best in its class, covering up to 200 m² in a single session. And thanks to its self-emptying base (with 2 L capacity), you can forget about daily maintenance for up to a month. Whether you're managing a large home, a multi-pet household, or just want the most hands-off cleaning experience possible, RoboClean Ultra is your full-service floor care solution — sleek, smart, and spectacularly efficient.

Key Specs:

Feature	Specification
Cleaning Area	Up to 200 m ²
Battery Life	Up to 180 minutes
Charging Time	~4 hours
Suction Power	3000 Pa
Dustbin Capacity (onboard)	400 ml
Self-Emptying Base	2 L capacity
Water Reservoir Capacity	300 ml (for mop version)
Noise Level	62 dB
Dimensions	34 cm diameter × 9.5 cm height
Weight	3.5 kg (robot only)
Navigation	LiDAR + SLAM smart mapping
